

DOCUMENTATION

- Bibliographic references and summaries by databanks
- Off-prints
- Diagnosis
- Synthesis notes or reports
Optional: Expert's signature

SAFETY EVALUATION

- Toxicological profile of raw material
Optional: expert's signature
- Analysis of toxicological risk of a formula / product
Optional: expert's signature
- Expertise: formula analysis and tests recommendation by an expert before product launch or clinical testing
- Safety assessment by a safety assessor
- Toxicological watch

REGULATORY AFFAIRS

- Creation of Material Safety Data Sheets (MSDS)
- Notification / Declaration / Registration of raw materials and products
- Creation, audits, diagnosis of Technical Files
- Regulatory compliance of communication supports
- International regulatory watch

SCIENTIFIC ADVICE / TECHNICAL SUPPORT

- Accompaniment during product lifecycle: development, launch, post-marketing
- Design of tailor-made protocols
- Choice of raw materials
- Selection of tests

FIELDS OF ACTIVITY

CHEMICALS • DETERGENTS • BIOCIDES • PHARMACEUTICALS • MEDICAL DEVICES
COSMETIC INGREDIENTS • FINISHED COSMETIC PRODUCTS • FOOD SUPPLEMENTS
